“Louise is one of those rare human beings whose honesty, authenticity, and gentle care creates a safe haven for healing. Without a doubt she is a genuine natural healing soul. During a profound session I was able to undergo a process that has enabled me to release certain negatively held beliefs, and allowed me to feel free, light, clear – more able to stand in my power and create solid boundaries. I have been provided with the courage to follow what I would call my ‘true path’. Thank you Louise for creating a safe container in which I was able to bridge a connection to my Higher Self – a beautiful experience.”

“The session I had with Louise I can only describe as a deeply profound experience. I have since been able to re-experience the feelings, thoughts, vision and journey that she gently guided me through. I’ve had a chronic health condition for many years and I now feel more at peace and less afraid of what each day will bring – more confident and inwardly attractive. Louise helped me reunite with Source – I felt like I had come home. In an instant it all made sense. It felt like spiritual ecstasy. I am deeply grateful for Louise’s skill and dedication in what she does.”

"A most natural, calm and relaxed experience. All of my life issues and concerns were skilfully woven into the hypnosis session in what felt like the perfect order. Louise kept me floating at just the right level of consciousness, where there were no doubts or uncertainties about the information from my Higher Self. I have been introduced to the truly infinite expansiveness of my mind, where all my answers lie. To look into the mirror after the session said it all – total bliss and total peace."
